The Sound Choice for New Hammond Organs

Hammond 44

A New Sound is a Breath Away

The Hammond 44 is the finest, most deluxe and most versatile Melodion (Keyboard Harmonica) every produced. Designed in collaboration with leading Harmonica manufacturer Suzuki Musical Inst. Mfg. Col, Ltd, the Hammond 44 offers many unique features that will compliment all facets of music. Pops, Jazz, Roots, Rock, Country, Blues, Latin, Reggae, World/Ethnic and Folk; the Hammond 44 is perfect for all these genres.

PURE Hammond

The Hammond 44 is the first Melodion that incorporates a built-in Dynamic Microphone (Patent Pending) which creates less mechanical noise compared to an external microphone and an exceptional clear reel sound with H.D. Quality Sound reproduction. This unique microphone creates a very warm and deep sound that can't be matched by an external microphone.

The Hammond 44 incorporates the first 44 note piano style keyboard on a Melodion instrument. The lowest keyboard note is c and ends at g³. This wider ranger keyboard is especially useful when playing the Acoustic/Electric Melodion in a solo performance.

The keyboard has a slightly shallow key stroke compared to other keyboard products. This aids the musician when fast fingering or glissandos are required.

The Hammond 44 utilizes the best sounding reeds in the world! The Hammond 44 uses newly designed custom tapered reeds that offer the musician brighter and warmer sounds than any other keyboard.

There are three types of mouthpieces included with the Hammond 44. With the short mouthpiece and hand-strap, you can play the Hammond 44 upright like a trumpet, or use the flexible mouthpiece to hold the 44 at arm's length, or sling the 44 on like a guitar (with a guitar strap and the included strap buttons). Using the L joining long mouthpiece you can play it as a table-top instrument, with the option of putting it on top of your organ, piano or synth. The non-skid feet steady the 44 in the last application

A backpack-styled gig bag in black and burgandy displays the Hammond logo and is designed to hold the 44, all the mouthpieces, and the polishing cloth.

MP-2002

The Velcro-adjustable hand-strap on the Hammond 44 allows a perfect fit for any size hand. The easy adjustment insures a highly comfortable performance.
